STAT

MEMORANDUM FOR: Legislative Counsel

FROM : Deputy Director of Central Intelligence

SUBJECT : Electronic Surveillance

So far I have talked to Congressmen Volkmer and Railsback. Congressman Volkmer said he had been hesitating, but was persuaded by our session last week. He needed to do some more studying, but thought he would come out on our side. Congressman Railsback said he would support us. In fact, he would go so far as to make a statement on the floor that this should not become a partisan issue, reminding members that a similar bill was formerly introduced by the Ford Administration.
